Doctor's Release on $7,500 Bail Directed by Court at Greensburg

By Associated Press

GREENSBURG, Feb. 20.—Doctor Martin E. Griffith, the Monessen physician held in jail here in connection with the death in the Charleroi hospital of William L. Robinson, was released on $7,500 bail today by Judge L. W. Doty.

At the hearing his attorneys did not ask that he be cleared of the charge of murder but merely that the court fix bail in order that he might be freed from the county jail pending the action of the grand jury.

A number of leading physicians were present, as was Mrs. Griffith who arrived here this morning and went at once to the jail. Only two witnesses were called. Dr. Morgan C. Cramer, a member of the staff of the Charleroi hospital who attended Robinson from the time of the operation until his death, was the first. He testified that when he returned from a call on the morning of January 26 he found a [illegible] summoning him to the residence of Doctor Griffith. When he arrived he was met by Doctor Griffith who led him into the dining room. According to the witness, Doctor Griffith said: "I observed the man's actions for six minutes and then beat him up. I used my fist."

Doctor Cramer said Griffith told him he had operated on Robinson and sent for an ambulance. He asked Cramer to look after the patient. He said he attended Robinson every day but one after his admission to the hospital. He also said that on the Sunday before Robinson died, the patient had called the witness on the phone and said he was feeling fine and that he was able to walk. Doctor Cramer said Robinson died February 11.

James Farrell, a newspaper reporter, testified that when he called on Doctor Griffith the doctor said he had seen Robinson attacking Mrs. Griffith and had beat him with his fist and perhaps with his cane.

In fixing bail Judge Doty said that the act was probably premeditated. He also said that provocation was shown and while the wounds may have caused Robinson's death the evidence did not warrant a charge of more than second degree murder and entitled the prisoner to bail.

EXECUTORS ACCUSE BANK OF WITHHOLDING SECURITIES

Barron Statement Correct, They Assert. Costly Gifts to Wife Denied.

Special to The Courier.

SOMERSET, Feb. 20.—That the Farmers National Bank of Somerset withheld securities and other valuable papers belonging to the late Henry I. Barron, its former cashier, who was accused of embezzling $43,000, was alleged in the statement filed today by Elsie Stahl Barron and Daniel G. Stahl, executors, in reply to the exceptions filed against their account. In the same statement Mrs. Barron denies that her husband spent lavish sums upon her for jewelry. The answer to the exceptions contains the statement that the only jewelry bought her was a gold wedding ring, which he placed on her finger during the ceremony.

The executors alleged that Barron's papers were kept in a safe deposit box at the bank and that the only knowledge of the accounts of that box has been that as supplied by the officials of the bank. They allege that certain stocks, bonds and papers have been withheld. Further the executors allege the bank has refused to turn over Barron's bank books, cancelled checks and stubs, by which it might be possible to determine the value of the estate. That two notes given by J. A. Berkey are also held by the bank is charged.

The answer was filed to the exceptions made by the bank. The bank alleged that the executors failed to account for all of Barron's property.

By Associated Press.

CONCORD, N. H., Feb. 20.—Whether Harry Thaw should be discharged on a writ of habeas corpus and admitted to bail pending a final decision by the United States court on the habeas corpus proceedings were the questions for argument before Judge Aldrich of the United States Circuit court today. William A. Stone, former governor of Pennsylvania, represented Thaw and William T. Jerome opposed him.

A commission appointed by Judge Aldrich recently reported that Thaw would not be a menace to the community if released on bail. The constitutional questions were set forth at length.

By Associated Press.

WASHINGTON, Feb. 20.—Colonel George W. Goethals said today that barring unforeseen accidents, the Panama Canal will be opened for merchant ships on July 1. He added that he has always been opposed to the exemption of American coastwise ships from tolls because that would reduce the revenue of the canal and would increase the profits of ship owners.

"The canal fortifications are entirely adequate," said Colonel Goethals, "and I do not think there is the slightest chance of the canal being captured by any enemy, for it would not be possible for any force to get near enough."

BRITISH SUBJECT SLAIN BY VILLA; REBEL THEN FLEES

Ranch Owner is Murdered When He Protests Against Guerilla Raids.

CONSUL BREAKS NEWS TO WIFE

Forwards Details to Washington But Refuses to Reveal Them in Juarez Because of Promise to the Rebel Chieftain, Feeling There Runs High

By Associated Press.

EL PASO, Tex., Feb. 20.—William S. Benton, the British subject who disappeared in Juarez Tuesday night, is dead, according to news brought to Mrs. Benton by Thomas D. Edwards, American consul at Juarez.

A telegram from Washington said that details are in the hands of Secretary Bryan. Benton was tried by court martial and convicted of a plot to take General Villa's life. He was executed by a firing squad.

Mystery surrounds the report of the death. William Benton, a cousin of the dead man, confirmed the report. "Consul Edwards told Mrs. Benton," he said, "that her husband was dead in Juarez. The consul said Villa has confirmed this but said that Villa had asked him not to make public the details except in official dispatches to his government."

Benton was executed Tuesday night after a trial by a military court in Juarez, according to what appears to be a correct version of the affair. The charge against Benton was that he was implicated in a plot to take Villa's life. Villa left for the south this morning on a special train.

Benton was last seen alive in Juarez Tuesday morning. He was making his way to Villa's home and said he was going to "tell Villa what he thought of him" for the manner in which his ranch in Western Chihuahua had been raided and looted by rebel soldiers. Instructions had been sent by the State Department yesterday to Consul Edwards, it is reported, to see that no harm should come to Benton. The instructions being sent at the request of the British ambassador at Washington. The warning, it now appears, came too late. It is supposed that Villa's defense will be that the man was shot because he entered Villa's office and started to draw a gun, although the cousin says that Benton was not armed.

Benton and Villa have been acquaintances for many years. Benton knew him when as an outlaw more or less accepted as a part of the Mexican social fabric the then bandit crossed the Benton ranch west of the city of Chihuahua.

The ranch of 100,000 acres is considered one of the best in Mexico. Benton paid $125,000 for it but improvements are said to have brought the value close to $1,000,000. It was with the assurance of this acquaintance behind him that Benton, whose courage if not his discretion is admired, went to Villa with the complaint of the depredations committed on his property.

Yesterday Villa, who has constantly denied that he had Benton in custody, told a reporter that Benton was armed when he made his visit. Friends of the ranchman assert that Benton, while of fiery temper, and ready to use his fists, was of sober habits and never known to carry a gun. His great reason for going unarmed was his own knowledge of his temper.

In the course of the interview Benton and Villa quarreled and Benton was lost to view of his friends. James Hambleton, an Englishman, and others, including reporters, exhausted every means of ascertaining the fate of the missing man but everywhere were met with evasions and denials. Consul Edwards was the first to learn the facts. He gave Mrs. Benton only a bare outline of the case.

"I have telegraphed all the details at my command to Washington," said the consul, "and if made public it must be from there. I pledged my word to Villa not to make the details public."

Asked what disposal had been made of Benton's body, Edwards replied: "I do not think it will be seen on this side of the border."

Villa's sudden departure is regarded as flight from the storm of indignation here.

WASHINGTON, Feb. 20.—Secretary Bryan was advised of the death of W. S. Benton, an English ranch owner in Mexico recently reported in the hands of the rebels.

Secretary Bryan announced Benton's death as he went into a cabinet meeting at the White House. He said an official dispatch from Consul Edwards merely stated that Benton was dead. Sir Cecil Spring-Rice, the British ambassador, who called upon Secretary Bryan to ask for information also was told of the news.

Benton was arrested at Juarez last Tuesday and had not been heard from since. His wife and friends feared that he had been executed by General Villa. Villa at first denied knowledge of Benton's whereabouts, but yesterday intimated that he knew something about Benton and that Benton had threatened him with a revolver.

Villa was quoted as expressing a profane indifference to the action of the British consul to whom Benton's friends declared they would appeal.

MORE OVENS ARE FUMIGATED; SMALLPOX IS NOT SPREADING

Patient at Pest House Getting Along All Right. No New Cases Discovered.

Efforts to prevent the spread of smallpox in this vicinity have so far proven successful; no new cases having been discovered. The health authorities who have charge of the case have not stopped at isolating William Brown, the patient in the pest house just east of town. Yesterday Constable John Snyder of Connellsville township fumigated 30 more empty coke ovens in which the hoboes have been living.

Constable Snyder, who has been assisting State Health Officer Allen Hyatt, who is ill, is also keeping an eye on the pest house. He says that the guard is attending strictly to business and that the patient is getting along as well as could be expected according to long distance reports. Other than getting out once, and a while to have a snowball fight, the guards have not left the place since threatened with arrest and quarantine on Monday night.

Constable Snyder shooed off 37 hoboes who have been living in the ovens. A number were frightened away by the smallpox scare but the 37 insisted upon remaining.

An inspection of the ovens reveals some interesting devices for converting the vacant ovens into winter homes. The doors have been barricaded shut and furnaces built of bricks in the interior. Fuel is available from the waste coke and coal and if necessary food may be obtained from some workman's dinner pail, if it is handy.

NOT FOR CIRCULARS

Postoffice Officials Want to Stop Improper Use of Mail Boxes.

In an effort to prevent the stuffing of private mail boxes with advertising literature, much to the annoyance of the mail carriers, Assistant Postmaster Thomas J. Hyatt is making the rounds to learn who is responsible. The postal authorities will proceed against the offenders.

It is charged that distributors of circulars and bills place them in the openings of the mail receptacles that being the place where the residents are most likely to look for them. When the mail carrier comes along he must remove them before he can put mail in the box. The time lost amounts to a great deal.

Postmaster McGinnis has received a letter from the department directing him to make this investigation and investing him with authority to bring prosecutions against the offenders.

The plan is first to take up the work among the school children. By interesting them in the plan to beautify their homes by starting flower gardens, setting out shade trees and inaugurating other simple improvements which mean much in the long run the parents become interested and take up the work voluntarily.

A decision as to whether the Chamber of Commerce will undertake a campaign of this kind here will probably be reached this afternoon.

AFRAID TO EAT

Girl Starving on Poorly Selected Food.

Several years ago I was actually starving, writes a Me. girl, yet dared not eat for fear of the consequences.

I had suffered from indigestion from overwork, irregular meals and improper food until at last my stomach became so weak I could eat scarcely any food without distress.

"Many kinds of food were tried, all with the same discouraging effects. I steadily lost health and strength until I was but a wreck of my former self.

Having heard of Grape-Nuts and its great merits I purchased a package, but with little hope that it would help me—I was so discouraged.

"I found it not only appetizing but [illegible] that I liked and that [illegible] the craving for food without [illegible] distress, and if I may use [illegible] expression, 'it filled the bill.'

"For months Grape-Nuts was my principal article of diet. I felt from the very first that I had found the [illegible] to health and happiness, and my anticipations were fully realized.

"With its continued use I regained my usual health and strength. Today I am well and can eat anything I like, yet Grape-Nuts food forms a part of my bill of fare."

OUCH! RHEUMATISM, RUB PAIN, SORENESS AND STIFFNESS AWAY

Don't Suffer! Get a Small Trial Bottle of Old-Time St. Jacobs Oil.

Stop "dosing" Rheumatism.

It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacobs Oil" conquers pain. It is a harmless "local rheumatism cure" which never disappoints and doesn't burn or discolor the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia and reduces swelling.

Limber up! Get a small trial bottle of old-time honest "St. Jacobs Oil" from any drug store, and in a moment you'll be as free from pains, aches and stiffness.—Adv.

SURE WAY TO GET RID OF DANDRUFF

End Itching Scalp and Stop Falling Hair—At Once.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to keep your hair looking rich, do by all means get rid of dandruff, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Adv.

FRAIL, SICKLY CHILD

Restored to Health by Vinol—A Letter to Mothers.

Anxious mothers often wonder why their children are so pale, thin and nervous and have so little appetite. For the benefit of such mothers in this vicinity we publish the following.

Mrs. M. L. Cassady of Thomasville, Ga., says: "My little daughter was anaemic, delicate and nervous, she had no appetite and seemed listless. We could not seem to find anything that would help her until we were advised to give her Vinol. Inside of two weeks after taking it she showed a marked improvement, both in appetite, vim and looks. I continued giving it to her and words fail to express my gratitude for what Vinol has done for her."

This child's recovery was due to the combined action of the medicinal elements extracted from cods' livers, combined with the blood making and strength creating properties of tonic iron contained in Vinol.

Vinol will build up and strengthen delicate children, old people, and the weak, run-down and debilitated. We return the money in every case where it fails. Graham & Co., druggists, Connellsville. Vinol is sold in West Side by Fred H. Barmeding, druggist.

What a Check Says.

A bank check has a message aside from its actual face value. It says that the drawer has funds in the bank. It says that he is known at the bank and that the bank will honor his signature. It says that he systematically deposits his income and pays expenses by writing his own checks. Your check will say all of this for you if you deposit your income with this bank and pay your expenses by drawing your own checks. Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Genuine Castoria always bears the signature of Chas. H. Fletcher

SOME ODD SHAPES AND NEW MATERIALS IN PARASOLS.

Three of the newest style sunshades are shown here. The upper portion of the sunshade at the top of the group was covered with a dark brown pongee, the upper portion of this embroidered in old blue while that part which would correspond to the brim of a hat was left plain. A band of black velvet ribbon encircled it and the same decorated the stick, which is sketched just below. The parasol in the center was of Russian green taffeta, the center or body of the sunshade shirred closely in rows. It was finished by two ruffles. It might be more exact to call the outer ruffle a puff while the other had a pinked edge. The lower parasol was covered with [illegible] chiffon, shirred and finished by a broad band of the [illegible] and edged with self-ruches.

"I am an old man—and many of my troubles never happened."—ELBERT HUBBARD

THE white hair and wrinkled faces of our busy men and women tell of doubt, fear and anxiety—more than disease or age. Worry plays havoc with the nervous system—so that digestion is ruined and sleep banished. What oil is to the friction of the delicate parts of an engine—

DR. PIERCE'S

Golden Medical Discovery

is to the delicate organs of the body. It's a tonic and body builder—because it stimulates the liver to vigorous action, assists the stomach to assimilate food—thus enriching the blood, and the nerves and heart in turn are fed on pure rich blood. Neuralgia "is the cry of starved nerves for food." For forty years "Golden Medical Discovery" in liquid form has given great satisfaction as a tonic and blood maker.

Now it can be obtained in tablet form—from dealers in medicine or send 50 one-cent stamps for trial box. Write R. V. Pierce, Buffalo.

DR. PIERCE'S PLEASANT PELLETS Relieve constipation, regulate the liver, and bowels. Easy to take as candy.

MOTHER! IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Constipated, Bilious, Stomach Sour, Give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company." Don't be fooled! Adv.

WILSON'S LATE REPENTANCE.

Evidences are not lacking that President Wilson has in the cold light of experience been overcome with sickening doubts as to the wisdom of the Democratic Tariff policy and is doing what he can to repair the breaches it has made in American industry and prosperity. He recently announced that the Democratic administration would do nothing to harass business, which by every means in its power it desired to encourage. He has followed this declaration by calling the Interstate Commerce Commission upon the carpet at the White House and insisting that the railroad rate case be disposed of promptly, and there is reason to believe in this connection that the influence of the administration may be exerted in favor of the increase of 5% asked by the transportation interests.

President Wilson probably believes with a number of good judges that the granting of this advance would be the opening wedge to an early and general revival of business. The railroads consume about one-third of the iron and steel product of the country. Their requirements have not been fully met for some time past because of their inadequate net operating revenues. There is an accumulated need which will take the shape of mill orders as soon as these conditions are changed. The 5% advance will, it is stated in railroad circles, accomplish this purpose almost automatically. The large orders for steel and iron involved would create a boom in mill and furnace circles which would encourage business generally and would develop other steel bookings which are now dormant.

That this is the Democratic policy is evidenced by the fact that Democratic organs like The News, which get their inspiration right from the White House through the medium of the Barefoot Boy Combine, and which have hitherto evinced no interest in the proposed advance in freight rates save to faintly damn it as a corporation proposition, have suddenly become righteously indignant over the delay of the commission in dealing with the matter and are demanding prompt action saying with belated truth that if the railroads are entitled to the 5% increase they are entitled to it now.

But the Interstate Commerce Commission moves slowly because it hears all interests who may desire to be heard in all matters which come before it. The taking of testimony in consequence sometimes stretches out to interminable lengths and causes much delay. The proposed 5% horizontal advance in rates by all eastern railroads is perhaps one of the biggest cases the commission has ever heard. Much testimony has already been taken, during the progress of which the railroads have been advised that they have been unlawfully dividing large sums with industrial railroads, and that they can lawfully make a reasonable charge for setting cars on private sidings and taking them away. The railroads admit that these additional revenues will materially improve their situation. The question in the mind of the commission seems to be whether this additional revenue will obviate the necessity of the proposed horizontal rate advance. It thus develops that the justice of the original railroad demand has already been at least partially recognized by the commission.

We quite agree with our Democratic contemporaries, however, that the rate question should be settled as promptly as possible in order that business may adjust itself to it. When prosperity is dodging us, it's no time to potter.

If the broken South Side sewer is a menace to public health there is no time to be lost inquiring into the responsibility for the cost of repairing it. The city should repair it at once and if the cost is properly chargeable to private persons collect the bill afterwards.

The Ground Hog saved Pittsburg from another flood.

"Just what does the Courier pay taxes on, anyhow?" inquires our rather impertinent contemporary, The News. The Courier will this year pay an income tax, something it never paid before, but it will not be so large under Democratic adversity as it might have been under Republican prosperity.

It was the other ox that was Gored out in Oklahoma.

Judge Ruppel of Somerset has tipped off the citizens of Addison township to the fact that while school boards have autocratic powers the people still rule.

The Uniontown automobile show next week will no doubt be liberally patronized by automobile salesmen.

The First National Bank of Connellsville invites the children to express their ideas of civic improvement. "In a multitude of counsels there is wisdom," and some of it may come from small heads.

The colored impression that whisky is an antidote for smallpox is a mistake. It is merely stimulating to the courage.

Brimstone Corner has been nearly everything except a baggage room, but the police have drawn the line somewhere.

The Somerset variety of the blizzard is not to be trifled with.

Senator Oliver is swinging around the circle in a manner highly suggestive of new ambitions. It will be remembered that he does not want another term in the Senate.

SCOTTDALE GRANGE PLANS ITS PROGRAM FOR ANNUAL MEETING

One When Great Banquet Is Held and Rival Cooks Compete.

LITERARY AND MUSICAL DAY

Saturday, February 28, Is Chosen as the Date for This Year's Meeting, Which Brings Forth the Big Crowds to Fill Grange Hall; Library Report.

Special to The Courier.

SCOTTDALE, Feb. 20.—Eureka Grange, Patrons of Husbandry, are preparing for their great annual meeting and banquet, which brings forth the finest sample of cookery that is gathered in one place as a contribution of the country homes, with the exception possibly of the summer picnics. It is the day when the pies, cakes, sandwiches and coffee are such as to tempt the appetite and threaten the digestion of the most intrepid, for it is all there in varied forms and unlimited measure. The annual gathering, which is the star feature of all the regular meetings, has been set for Saturday, February 28, and will open at 10.30 o'clock.

The dinner will come at noon, and it will be called dinner, no fancy citified name of luncheon being tolerated at all. The dinner will be served in the Grange Hall in the Eicher & Kraft building.

There will be given a pleasing musical and literary entertainment. Among those whom the committee has secured are Hubert C. Eicher, principal of the Mount Pleasant township high school, and Samuel F. Hauwold, principal of the East Huntingdon township high school, with addresss which will be interesting to the people. Dr. I. E. Runk, pastor of the United Brethren Church, will be another speaker. Miss Irene Fritts, a gifted reader, will take part in the program. Miss Winifred Rial, one of East Huntingdon township's best teachers will also have a part. The Ridenour orchestra is booked for numbers in the musical program and the Misses Detwiler, who are always pleasing entertainers, will also take part in the musical program. The committee is also arranging for other speakers and musicians, so that the literary and musical end of the entertainment will be filled.

THE BANNER MONTH.

The banner month in home circulation of the Scottdale Free Library which was founded in 1910 was for the month of January and showed the largest circulation in the history of the library. It illustrated the popularity and the value of this institution. The circulation was 5,461, a gain of 638 over its previous months, and a 616 over any previous month, and a of December. The number of magazines used in the reading room was 7,497 and the number of reference books used 3,025, which in part shows the library as a valuable adjunct to the schools, as the pupils use of its great collection of books in a generous manner. There are now 9,053 books in the library.

BASKETBALL TONIGHT.

The Greensburg Scholastics, a star five picked from all the basketball players of the county seat, will be at Ellsworth Auditorium this evening to play the Scottdale team. A good game is looked for between these two star teams at 8.15. A free dance for the patrons follows the game.

COTTAGE MEETINGS.

The fourth and last of the series of union cottage prayer meetings preparatory to the union evangelistic services will be held at 7.45 this evening at a number of homes of town and its vicinity.

WILSON WANTS ACTION.

Urges Congressmen to Repeal Canal Tolls Exemption.

By Associated Press.

WASHINGTON, Feb. 20.—President Wilson pressed further for the repeal of the examption clause of the Panama canal exemption clause or the Congressmen today. He talked with Senator Kern, majority leader, who said afterward that the Senate would dispose of the arbitration treaty first and the tolls question immediately.

Representative Palmer, chairman of the Democratic caucus, said that while he had voted against the exemption he would work actively for its repeal.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.—Adv.

The Valiants of Virginia

Hallie Erminie Rives

Illustrated by Laurens Blood

He paused to greet the flaming peacock that sent out a curdling screech, in which the tentative potterack! potterack' of a guinea-fowl tangled itself softly. "Go on," he invited. "Explode all you want to, old Fire-Cracker. Hang your purple-and-gold pessimism! You only make the birds sound sweeter. Perhaps that's what you're for—who knows?"

He tried to work, but work was not for that marvelous afternoon. He wandered about the gardens, planning this or that addition: a little longer sweep to the pansy-bed—a clump of bull rushes at the farther end of the lake. He peered into the stable: a saddle horse stood there now, but there should be more steeds stamping in those stalls one day, good horseflesh bought with sound walnut timber from the hillside. How he and Shirley would go galloping over those gleaming roads, in that roseate future when she belonged to him!

Uncle Jefferson, from the door of the kitchens, watched him swinging about in the sunshine, whistling the "Indian Serenade."

"Young mars' feel 'way up in de clouds dis day," he said to Aunt Daphne. "He wake up so glad as ef he done 'feeted 'ligion las' night. Well, all de folkses cert'n'y 'joyed deyselves. Ol' Mistah Fargo done eat 'bout forty uh dem jumbles. Ah heah him talkin' ter Mars' John. 'Reck'n yo' mus' hab er crackahjack cook down heah,' he say. Hyuh, hyuh!"

"G'way wid yo' blackyardin'!—" sniffed Aunt Daphne, delighted. "Den' need ter come eroun' honey-caffuddlin' me!"

"Dat's what he say," insisted Uncle Jefferson; "he did fo' er fac'!"

She drew her hands from the suds and looked at him anxiously. "Jeff'son, yo' reck'n Mars' John gwineter fotch dat Yankee 'ooman heah ter Dam'ry Co'ot, ter be ouah mistis?"

"Humph!" scoffed her spouse. "Dat highfalutin' gal whut done swaller de ramrod? No suh-ree-bob-tail! De oldah ye' gits, de mo' foolishah yo' citations is! Don' yo' tek no mo' trouble on yo' back den yo' kin keek off'n yo' heels! She ain' gwineter run dis place, er ol' Devil-John tuhn ovah in he grave!"

Sunset found Valiant sitting in the music-room before the old square piano. In the shadowy chamber the keys of mother-of-pearl gleamed with dull colors under his fingers. He struck at first only broken chords, that became finally the haunting barcarole of "Tales of Hoffmann." It was the air that had drifted across the garden when he had stood with Shirley by the sun-dial, in the moment of their first kiss. Over and over he played it, improvising dreamy variations, till the tender melody seemed the dear ghost of that embrace. At length he went into the library and in the crimsoning light sat down at the desk, and began to write:

"Dear Bluebird of Mine:

"I can't wait any longer to talk to you. Less than a day has passed since we were together, but it might have been eons, if one measured time by heart-beats. What have you been doing and thinking, I wonder? I have spent those eons in the garden, just wandering about, dreaming over those wonderful, wonderful moments by the sun-dial. Ah, dear little wild heart born of the flowers, with the soul of a bird (yet you are woman, too!) that old disk is marking happy hours now for me!

"How have I deserved this thing that has come to me?—sad bungler that I have been! Sometimes it seems too glad and sweet, and I am suddenly desperately afraid I shall wake to find myself facing another dull morning in that old, useless, empty life of mine. I am very humble, dear, before your love.

"Shall I tell you when it began with me? Not last night—nor the day we planted the ramblers. (Do you know, when your little muddy boot went trampling down the earth about their roots, I wanted to stoop down and kiss it? So dear everything about you was!) Not that evening at Rosewood, with the arbor fragrance about us. (I think I shall always picture you with roses all about you. Red roses the color of your lips!) No, it was not then that it began—nor that dreadful hour when you fought with me to save my life—nor the morning you sat your horse in the box-rows in that yew-green habit that made your hair look like molten copper. No, it began the first afternoon, when I sat in my motor with your rose in my hand! It has never left me since, by day or by night. And yet there are people in this age of airships and honking highways and typewriters who think love-at-first-sight is as out-of-date as our little grandmothers' hoops rusting in the garret. Ah, sweetheart, I, for one, know better!

"Suppose I had not come to Virginia—and known you! My heart jumps when I think of it. It makes one believe in fate. Here at the Court I found an old leaf-calendar—it sits at my elbow now, just as I came on it. The date it shows is May 14th, and its motto is: 'Every man carries his fate upon a riband about his neck.' I like that.

"That first Sunday at St. Andrew's, I thought of a day—may it be soon!—when you and I might stand before that altar, with your people (my people, too, now) around us, and I shall hear you say: 'I, Shirley, take thee, John—' And to think it is really to come true! Do you remember the text the minister preached from? It was 'But all men perceive that they have riches, and that their faces shine as the faces of angels.' I think I shall go about henceforth with my face shining, so that all men will see that I have riches—your love for me, dear.

"I am so happy I can hardly see the words—or perhaps it is that the sun has set. I am sending this over by Uncle Jefferson. Send me back just a word by him, sweetheart, to say I may come to you tonight. And add the three short words I am so thirsty to hear over and over—one verb between two pronouns—so that I can kiss them all at once!"

He raised his head, a little flushed and with eyes brilliant, lighted a candle, sealed the letter with the ring he wore and dispatched it.

AT THE THEATRES.

THE SOISSON.

THE STORY OF "ARIZONA."

At a western military post Captain Hodgman, a black sheep, has brought shame and sorrow to Lena, the daughter of Sergeant Kellar, and Lena found employment in the family of Henry Canby, owner of a big ranch. Here she is brightened by the honorable love of Tony, a Mexican.

Back at the post, Captain Hodgman makes skillful love to Estrella, wife of the Colonel. Estrella is the elder daughter of Canby, and Bonita, her sister.

The troops riding up the valley, makes camp at Canby's ranch. There Hodgman is in the act of making love to Bonita when interrupted by Lieutenant Denton, the hero of the story. Estrella prevents the men from coming to blows. A few nights later there is a dance at the army post. Lena later finds Hodgman's note to the Colonel's wife, revealing his proposal that they run away.

Kellar learns from Lena of her love for Tony, who grimly waits to learn the name of her seducer. Lena, upon united demand of both, names Hodgman. The three enter the room just as Denton confronts Hodgman. Denton strikes Hodgman. In the excitement two shots are fired. Hodgman falls wounded. Cavalrymen and cowboys rush in. Hodgman accuses Denton. Tony, unobserved, slips away. Kellar testifies that the shot came from behind. Lena refuses to answer questions. The bullet extracted from Hodgman's body is produced and Denton is freed. Lena is ordered under arrest.

Tony, to save her, confesses to the shooting, but rushes through the gates and into his saddle. The Colonel orders his capture, but there is no rider like Tony, and he escapes. Estrella then makes a full confession exonerating Denton. Denton asks the Colonel to give his wife another chance. Away to the war then ride the troop and its officers, but the spectators feel that those estranged will be later brought together.

"Arizona" will be the picture attraction at the Soisson Theatre tomorrow afternoon and night.

Officials of the Carnegie Steel Company, confirming a report that notices had been posted in the Carnegie mills at Youngstown of reductions in wages of tonnage men, say that improved machinery has been installed in the Youngstown mills, which will enable the men to earn as much on the lower rate without additional work as they earned on the old basis.

The reduction became effective with the pay period ended last Saturday.

OVER HALF OF ALL SICKNESS CAUSED BY CLOGGED-UP WEAKENED KIDNEYS

Hundreds are Suffering With Kidney Trouble and Don't Know It. Backache, Bladder Disorder and Rheumatism are the Result.

It is a well recognized fact among physicians today, that the greater part of all sickness can be avoided by keeping the kidneys working properly.

This is even more important than for the bowels to move regularly, because the kidneys and bladder are the filters and sewers of the body. If you suffer with pains in the back or sides, bladder or urinary disorders, lumbago, rheumatism, dizziness, puffy swellings under the eyes or in the feet and ankles, nervousness, tired and worn-out feeling, or any of the many other symptoms of kidney trouble, don't neglect yourself another day and run the risk of serious complications. Secure an original package of Croxone, which costs but a trifle, take three doses a day, for a few days, and you will be surprised how entirely different you will feel.

Croxone overcomes the very worst cases because it removes the cause of such troubles. It soaks right in and cleans out the kidneys and makes them filter out all the poisonous waste matter and uric acid that lodges in the joints and muscles, causing rheumatism; soothes and heals the bladder and quickly ends all such troubles.

It is the most wonderful remedy ever made for the purpose. You will find it entirely different from anything you have ever used. There is nothing else on earth to compare with it. It matters not how old you are or how long you have suffered, the very principle of Croxone is such that it is practically impossible to take it into the human system without results.—Adv.

MUCH CAR SPOTTING IN COKE REGION IS DONE BY RAILROADS

"Free Allowance" Hearings Bring Out Interesting Data.

DESCRIBE COKE MOVEMENT

Trainmen Tell of Service Performed by Their Lines for Benefit of Operators, Cement Concern Suggests that Industry Should Pay Cost.

The "free allowance" hearings before Commissioner Harlan of the Interstate Commerce Commission, sitting at Washington, were adjourned indefinitely on Saturday last. In the meantime, the announcement is made that the application of the railroads for a 5% horizontal advance in freight rates has been postponed until September. This postponement does not necessarily mean that the commission will refuse the advance. It is merely taking the time allowed it by law to consider the matter.

The hearings on the proposed free allowances developed some interesting information. Among the witnesses was W. A. Sheaffer, Freight Trainmaster of the Pennsylvania railroad, well known in the Connellsville coke region and knowing well the region. He explained the movement of coke in this region. Coke cars returning from the east are classified at Altoona and sent to the yards from which cuts are taken to the various operations while cars from the west are classified at the Conway yards and sent to West Brownsville. The road engines, he said, place them on tracks in the coke operations on an upgrade from which they are dropped to the oven runways. At some places there is only one track, and the loaded cars must be "pulled" to make room for the empties. Usually however, it was explained, there are two or more tracks and the work is performed by the road engine crew. All but one of the operations were of the H. C. Frick Coke Co. The other was a Jamison coal and coke plant. At one of the Frick plants, it was stated, the coke company uses its own shifter for its own convenience.

O. M. Schriver, vice president of the Baltimore & Ohio railroad, said that company set 4,526 cars on private tracks at Baltimore last October at an average cost of $3.40 a car. He estimated the Baltimore & Ohio set 10 cars on team tracks at the cost of setting one on private tracks.

Richard Jones Jr., representing independent iron and steel companies of the Mahoning and Shenango Valleys, suggested if the commission take further testimony in regard to "spotting" service it make a personal inspection of conditions in the valleys. That would be as helpful as many reams of testimony. He explained that 75,000 cars move in and out of the valleys every month.

F. M. Coogan, traffic manager of the Alpha Portland Cement Company, testified as to the cost of switching power used by that company at [illegible] of its six plants, the trunk lines doing the work at the others. He said the company is in favor of having all cement plants placed on an equality by having a flat rate imposed for the setting of cars on private tracks. He expressed the opinion the carrier should set cars on an interchange track and from that point on the movement should be at the expense of the industry. He testified the average cost of setting cars on private tracks for his company is 90 cents per car. That average he said had been obtained through two years of observation. He said he thought the cement company can do the work a little cheaper than the trunk line carrier. The 90 cents he explained allows for depreciation, maintenance and every expense connected with the switching of cars. One plant showed for a period of seven years a cost of 81 cents, he declared. The Lehigh & New England, it was asserted, had an average cost of only 50 cents a car.

HAVE COLOR IN YOUR CHEEKS

Be Better Looking—Take Olive Tablets.

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

If you want a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box.

Take one or two nightly and note the pleasing results. The Olive Tablet Company, Columbus, O.—Adv.

Darning and Patching Would Become Less Popular

Socks better than "Interwoven" are yet to be made.

A pair will last longer, worn by the average man, than all the "guaranteed" socks strung together.

Some men would kick a hole through buckskin in spite of fate.

Others could wear gauze and keep their toes from going through.

But the average man
—he destroys a pair of ordinary socks in a week's time.

"Interwoven" is for everybody who wears socks and wants them whole—

And "Interwoven" will put up more resistance, stay on the job longer, make a pair of shoes more habitable, keep their shape and return from the laundry more times than any other sock the store ever had business with

—and we're acquainted with ALL kinds—good, bad and worse.

It's "Interwoven" nature to give the service here recorded.

They are built with "serve" for a foundation.

The yarns—cotton or silk—are the purest, toughest and most wearable possible to get.

The making is by experts of the highest order; by machines of advanced perfection.

The shape is woven into them; as is the superior wearing quality.

The colors are permanent-dyed right into the yarns.
